#### AMENDMENTS SUBMITTED

#### DEPARTMENT OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPROPRIATIONS ACT, 2000

##### DASCHLE (AND OTHERS) AMENDMENT NO. 1790

Mr. DASCHLE (for himself, Mr. KENNEDY, Mr. HARKIN, and Mrs. MURRAY) proposed an amendment to the bill (H.R. 2684) making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2000, and for other purposes; as follows:

On page 113, between lines 16 and 17, insert the following:

##### SEC. \_\_\_\_ SENSE OF THE SENATE.

(a) FINDINGS.—The Senate makes the following findings:

(1) The American people know that a strong public education system is vital to our Nation's future and they overwhelmingly support increasing the Federal investment in education.

(2) The funding level for the Subcommittee on Labor, Health and Human Services, and Education of the Committee on Appropriations of the Senate has been reduced to pay for other programs.

(3) The current allocation for the Subcommittee on Labor, Health and Human Services, and Education of the Committee on Appropriations is 17 percent below fiscal year 1999 levels.

(4) The 17 percent reduction in Head Start will result in 142,000 children not being served.

(5) The 17 percent reduction will cost school districts the funds for 5,246 newly hired teachers.

(6) The 17 percent reduction will deprive 50,000 students of access to after-school and summer school programs.

(7) The 17 percent reduction in funding for the Individuals with Disabilities Education Act (IDEA) will make it far more difficult for States to provide an appropriate education for students with disabilities by reducing funding by more than \$880,000,000.

(8) The 17 percent reduction will deprive 2,100,000 children in high-poverty communities of educational services to help them do well in school and master the basics.

(9) The 17 percent reduction will result in 1,000 fewer school districts receiving support for their initiatives to integrate technology into their classrooms.

(10) The 17 percent reduction will deny nearly 200,000 disadvantaged and middle-income students access to counseling and educational support to help them succeed in college.

(11) The 17 percent reduction will reduce funds provided to schools to improve school safety by nearly \$100,000,000.

(12) The 17 percent reduction will cause 100,000 students to lose their Federal Pell Grant awards.

(13) No action has been taken in the Senate on the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2000.

(14) There are only 5 legislative work days left before the end of fiscal year 2000.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the Senate should increase the Federal investment in education, including providing—

(A) \$1,400,000,000 for the second year of the initiative to reduce class sizes in early grades by hiring 100,000 qualified teachers;

(B) an increase in support for programs that recruit, train, and provide professional development for teachers;

(C) \$600,000,000 for after-school programs, thereby tripling the current investment;

(D) an increase, not a decrease, in funding for the Safe and Drug-Free Schools and Communities Act of 1994;

(E) an increase in funding for part A of title I of the Elementary and Secondary Education Act of 1965 for children from disadvantaged backgrounds, and an increase in funding for reading and literacy grants under part C of title II of such Act;

(F) an increase, not a decrease, in funding for the Individuals with Disabilities Education Act;

(G) funding for a larger maximum Federal Pell Grant award for college students, and an increase in funding for mentoring and other need-based programs;

(H) an increase, not a decrease, in funds available to help schools use technology effectively in the classroom and narrow the technology gap; and

(I) at least \$3,700,000,000 in Federal resources to help communities leverage funds to modernize public school facilities; and

(2) the Senate should stay within the discretionary spending caps and avoid using the resources of the social security program by finding discretionary spending offsets that do not jeopardize important investments in other key programs within the jurisdiction of the Subcommittee on Labor, Health and Human Services, and Education of the Committee on Appropriations of the Senate.

##### ROBB (AND OTHERS) AMENDMENT NO. 1791

Mr. ROBB (for himself, Mr. WARNER, and Mr. DEWINE) proposed an amendment to the bill, H.R. 2684, supra; as follows:

At the appropriate place, insert the following:

##### SEC. \_\_\_\_ SENSE OF THE SENATE REGARDING AERONAUTICS RESEARCH.

(a) FINDINGS.—The Senate finds the following:

(1) Every aircraft worldwide uses and benefits from NASA technology.

(2) Aeronautical research has fostered the establishment of a safe, affordable air transportation system that is second to none.

(3) Fundamental research in aeronautics is not being supported anywhere in the country outside of NASA.

(4) The Department of Transportation predicts that air traffic will triple over the next twenty years, exacerbating current noise and safety problems at already overcrowded airports. New aeronautics advancements need to be developed if costs are to be contained and the safety and quality of our air infrastructure is to be improved.

(5) Our military would not dominate the skies without robust investments in aeronautics research and development.

(6) Technology transferred from NASA aeronautics research to the commercial sector has created billions of dollars in economic growth.

(7) The American aeronautics industry is the top contributor to the U.S. balance of trade, with a net contribution of more than \$41 billion in 1998.

(8) Less than ten years ago, American airplane producers controlled over 70% of the global market for commercial aviation.

(9) America's dominance in the world's civil aviation market is being challenged by foreign companies like Airbus, which now has approximately 50% of the world's civil aviation market, and is aiming to capture 70%.

(10) The rise of foreign competition in the global aviation market has coincided with decreases in NASA's aeronautics research budget and a corresponding increase in European investment.

(11) NASA's aeronautics laboratories have the research facilities, including wind tunnels, and technical expertise to conduct the cutting-edge scientific inquiry needed to advance state-of-the-art military and civil aircraft.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the United States should increase its commitment to aeronautics research funding.
